of *Care*

PUTTING PATIENTS FIRST

Healthcare providers today are largely driven by targets and bottom lines. In the effort to grow their businesses, most hospitals forget or ignore their core commitment: **'effective patient care'**. Their rampant promotion of sophisticated equipment and unapproved medical procedures has confused us all. It is important therefore for patients and caregivers to find out the 'essentials' for a good medical outcome for their condition. They should then evaluate the overall approach, expertise and facilities offered by the chosen hospital. After all, health is not an area you want to compromise on - for yourself or your loved ones.

**In other words, Be Sure when you go in. WHY EXPERIMENT?**

### **Why consider MIOT International?**

MIOT International, founded 23 years ago is a 1000 bed, tertiary care and Level 1 polytrauma centre offering medical care across 63 specialities. We offer care through the practice of evidence-based medicine and stringent infection control that matches international standards. Our experience has shown us that medical care is most effective:

- *When treatment is customised to each patient*
- *When it integrates the latest medical advances*
- *When the treatment process is collaborative*

Today patients from over 130 countries leave their homes and travel to us with the belief that we will restore them to normal, productive lives. Their trust is based on our consistent record of giving patients successful solutions that have returned them to a good quality of life, often from points of no return.

## What is MIOT'S culture of healing?

*We treat the disease, not just the symptoms.*

With our focus on ensuring good outcomes for all patients, we start with getting to the root cause of the disease. No treatment begins at MIOT without an accurate diagnosis, further to which we use the latest treatment techniques to correct it completely. This ensures an accurate and customised healing process so that the problem does not recur.

## One-stop care

You can access all medical services across specialities without leaving the MIOT campus - from doctor's consultations to sophisticated lab tests, advanced scans,

## MIOT International

# *Collaborative Care.*

## We keep Windows Open

MIOT is one of the few centres in the country today to constantly **integrate the latest** treatment modalities and facilities into ongoing treatments for every speciality. This minimizes or replaces invasive procedures, reduces medication and keeps patients pain free and comfortable. They heal faster, have shorter hospital stays and have better long term results.

surgery and rehabilitation. This reduces treatment & recovery time and total costs.

We also offer a range of comprehensive **Master Health plans** for Corporates and individuals customised to lifestyles.

## We are there - when you need care

*Expert, timely attention to patients makes all the difference.* Our team of handpicked, world-class specialists practise full-time and exclusively at MIOT.

Armed with the latest updates they discuss cases with other specialists on campus. They chart integrated and innovative treatment plans which are executed and monitored by dedicated care teams.

*This unique collaborative approach to care has enabled us to achieve outstanding outcomes, even in cases that are turned away elsewhere.*

## Our Facilities at a glance

- 21 state-of-the-art operating theatres
- ICUs that match stringent global standards
- Full time specialists

## Compassionate Care

Medical care is not all left brain led. Patients and caregivers are soothed and encouraged by the positive and compassionate environment that we strive to maintain across the spacious, green MIOT campus.

## We do not compromise on Patient safety

Infection is today one of the biggest threats to a patient's safe recovery in hospitals. With an infection rate of less than **0.02%**, MIOT international is today the Safest Hospital in India. This has been made possible through a combination of sophisticated infrastructure and stringent protocols & procedures that starts at the MIOT gates! While this has often been misinterpreted by caregivers and visitors, the management at MIOT has consciously refused to compromise on our patient's safe recovery.

## Priority Care

We understand that there are many demands on your time. Therefore, all our processes have been streamlined, with quiet attention to detail, to give you a seamless, comfortable experience.

*From the moment you enter our care, your safe and quick recovery is our only priority. Nothing else matters.*
